 Brainheaters

Impact of Brainheaters

Over the course of years, we have taken your report cards & Career very seriously and we're proud to see the quality success when it comes to your learning, exams, studies & personal life.

117k+

Students upgraded their academic & personal life journey.

27k+

Students Clear their KT's and Drop every year without any stress.

SINCE 2013

15000+ Top Stories

Top Highlighted Students success stories and How they changed their engineering academic life. Stories from all colleges across universities.

How Vedant was shocked about Brainheaters' impact on his engineering journey.

Bh.Student Since 2018 | College: RGIT

It was 20th day of September 2018 when my friend shared this very ambiguous link, totally out of context of what we used to talk about. That was the day I explored something which was very unusual to an Engineering student.

A site which has already sorted your Engineering studies even before your planning. Though I joined classes(vacation batch), there's always a concern amongst any learner to give that *extra* to what he/she's always planning to. That *extra* gains were totally from Team BH.

It has a tremendous source of material that is of utmost importance. This can only be mentioned by the one who sincerely followed what they told. Receiving end was completely our's, as they didn't fall short in being our source. Recently the results of FE Sem 2 were out & I scored a bang on 9.15 gpa. I don't know if this story would be the one which the Team BH would consider the BEST. To be honest, them reading this will surely have an impact of what they're doing in whole. Winding up I would THANK them for the role they played in my FRESHERS year & Keep up the Good Work

How Brainheaters helped Antariksh scale his academic culture & studies

Bh.Student Since 2018 | College: PVPPCOE

BRAINHEATERS,

What can I say about them! Let's start from the beginning!

I was in FE, completely unaware of these engineering subjects and literally scared of scoring. Then one of my friends shared the link of the WhatsApp group and asked me to join for some really helpful and awesome content. I was like, okay! Let's see! Then I started referring the study material, notes and all.

Second semester exams!

I was completely unaware about SPA! But the study material on the brainheaters really helped me to clear the subject. Also, the 'how to clear' series is really very helpful for time management.

Now I am in SE and really happy with the notes, question banks and blueprints that you guys have shared, for the first time I am expecting a better pointer! Thanks a lot guys you are doing some real awesome work there. You guys have set a milestone for many young entrepreneurs! Wish you the best for BH.School and keep helping us with your amazing content!

Thank you!

Suyog's smart transformation from 4 KT's in F.E to all clear with a vision of bright future

Bh.Student Since 2018 | College: Ideal Institute.

I'm SE Computer student, when I was in FE sem-1, I got 4 KT's in sem-1 and I was really upset, sad and full of negativity, after Sem-1 my friend send me a Whatsapp group link and told me to join this group and that was Brainheaters, it all started with great suggestions as well as guidance, then I was introduced to Smart studies concept, and slowly I started learning about how to work smart. I preferred brainheaters website, I got notes, blueprints, bh-plans and many more things which was a real game changer. Guess what?, In Sem 2 I cleared 8 subjects including KT(sem-1) and Sem-2, and that is possible because of brainheaters❤️.

Now, I'm Bh.School student, I'm getting knowledge and guidance about my career in Computer engineering, it's real time applications, Art of learning, Internship, Paper presentations, Interviews skills, Time management, and tons more.

Now, I really feel like I'm a Smart and good student in our college with external and internal knowledges of CSE field, I know what are my goals and I know which way I have to go. Thank You Team BRAINHEATERS ❤️ - Yours Faithfully, Student.

How Brainheaters totally changed the life of a drop out student – Anas Patel

Bh.Student Since 2018 | College: Ideal Institute.

Hi everyone I'm an average student like others, I am from mechanical engineering. I was very happy until I got to know the reality of engineering colleges. Assignments, deadlines, opposing teachers because they give it all at the end and we don't have sufficient time. That makes thing difficult for us and something similar happened to me, I got dropped in FE and I was like "OH MY GOD MY LIFE IS OVER NO ONE WILL HIRE ME IN FUTURE MY FUTURE IS OVER" but surprisingly my family was with me specially my father.

After I was confident to do engineering, one day I saw a video of this amazing community Brainheaters from that day itself I started following BH, I joined their whatsapp group, using their website for preparation. Trust me the team BH has done a very good job they have covered mostly everything which we need to know. Not just for me but for Civil, Computer, Electrical, etc. I used their methods and now I am all clear with my FE now I'm in SE and still using BH for exam preparation I strongly believe everyone should follow this team and lastly thanks to you team Brainheaters and my family.

For all – If you've kt's or drop don't think negatively because it eats you up, keep smiling and following team Brainheaters.

“

I used to wonder how will I survive in this competitive world then I came to know about brainheaters. In first sem my pointer was 7.67 but from last six months when I joined brainheaters I have learned a lot about how to write paper, perfect study material and smart study. Then in next sem I jumped to 8.89 and it was really revolutionary Thank you so much brainheaters. I'm still following brainheaters .

You saved a career end path of my friend i.e from leaving engineering due to parental pressure and taking B.Sc and almost wasting a year. That helped him a lot . Everything you provided was helpful so that means a lot to us.Thank you so much.

Aisha Patel

Since 2017 | College: SFIT

06

“

In FE I didn't know about BH, Scored around 7-7.5 gpa and was sad, friends scoring more than me with ease and I wanted to learn that smart way too. I got introduced to BH via WhatsApp Group and then I Scored 8.44 in Sem 3 and a whopping 9.3 in Sem 4. Just by solving BH Question Banks and Studying their Analytics of the Previous Year Papers and Study Material during the Exam Leave. Thank You BH :) You're the best!

Chetan Gawale

Since 2017 | College: Vidhyalankar Inst.

“

Being a tensed , depressed student to happy, smart, student. Brainheater has played very important role being a TECAHER, FRIEND, GUIDE. Bh actually resolved all the study related problems by teaching how to study smart and get time for soft skill development. All the members of Bh are VERY SUPPORTIVE they instantly reply to every doubt doesn't matter how relevant it is, You guys are doing an extra ordinary work by transforming us to Smart Engineers.

Shubham Upadhyay

”

I had more than 5 kts and specially in BEE I was upset about that + my regular college syllabus. After getting into Brainheaters, things started becoming very easy, I learnt a new perspective, started following them & their materials, and then finally those kt are cleared in first attempt. So, Thank You Brainheaters.

Aman Choudary

Since 2018 | College: SIGCE

“

Last year I was facing trouble with my end semester exams as I was afraid whether I will be able to complete my portion on time or not. So my friend suggested me to watch BH how to pass videos and I then started referring BH website and despite of studying a week before exams I scored 7.00 ptr in semester4. Thanks a lot to the entire team of Brainheaters.

Sanika Bhagwat

Since 2018 | College: Don Bosco Institute of Tech.

11

”

The Day since I entered into Engineering, the only motivational thought that was grasped in my mind was "Study Hard". After the first semester I came to know the reflection of my Perseverance. The Day I joined Brainheaters Community, I learned that studying hard is not the key to get stable in Engineering but studying smart is the real Key to prove the efforts and Brainheaters was the tool to unlock and explore the smartest way to survive in engineering and explore the hidden skills within me. Thanks Alot Brainheaters :)

Yash Bhalani

“

Brainheaters, First of all I bid you a big Thanks. All the question papers and the strategies shared by you has made my exams way too easier. Thanks a lot, hoping that we will get more and more help, strategies, support from you.

Jayashree Poojary

Since 2019 | College: Bharati Vidhyapeeth.

13

“

Brainheaters taught me the pattern of how Mumbai University Exams are, and how one must score from it. It gave me clarity and guided me as well on how to prepare for semester exams and which topics should be given more importance and has more weightage in exams through its analysis which eventually turned out to be very helpful to me in exams. Brainheaters played a very important role in my Engineering career!

Ruturaj Patil

Since 2018 | College: R.A.I.T

Harsh Sir taught me straight forward things. Never lose hope. Whatever happens it happens for good. Make your way positive direction with a vision. If you are good at something be Master of that and the world is yours. Academics were definitely switched smart and easy, but I learnt valuable life lessons at Brainheaters :)

Shadab Shaikh

“

I was in second semester, one day I got to know about brainheaters by one of the friend. He showed me how brainheaters works and help him too. I joined the group. In second semester I had fear of programing . Different questions with negativity used to come in mind because I never learnt any programming language before. With the brainheater notes, blueprint I started studying smartly and I feel confident in programing and after that boom! When second semester result out I firstly saw my SPA result and I got 79/80 which froze me for few seconds and I was so happy with that smart study and great output. I really say here that brainheater really helped me a lot and helping today also!

Prince Rodrigues

“

BH is the best platform for the students to get important questions for every subject. When you don't know what to do and paper is in 3 to 4 days take help of BH, I am sure you will not only pass but also score in that subject. Thank you BH for everything.

Jayesh Mahajan

Since 2018 | College: S.C.O.E

19

”

Thanks for a great semester! I love the books we read and the class meeting were always eye-opening. There was never a dull approach from your side whenever we ask anything related to semester you use to answer, especially thanks to "Leaders". That is what learning should be like once again thank you for your hard work and patience. You all are great instructor, organized, responsive, patient & able to clearly explain complex topic with a magic.

Rahul Goraksha

“

Brainheaters are awesome easy guidance to clear any subject through brainheaters I have learned that Engineering study is not a hard work, it's all about smart work. After 1st sem my friend told me to refer BH plans. And now I have given two papers and it was so easy, this is only because of brainheaters. I'm sure that I will continue to refer your BH all materials. You are so helpful. Thank you brainheaters!

Shumbham Pawar

Since 2019 | College: F.A.M.T

“

Well let's begin from the last sem, I was a direct second year student, didn't have any clue how to get on with engineering semesters all I had known was just CLEAR M3 FIRST so I concentrated on M3 the whole pre exam period, but once my M3 was done I realized there are four more subjects of which I didn't had any clue, I was just randomly searching for paper of last year and with my good luck I landed on BH page I not only found last year papers but also bunch of other incredible stuff that I wasn't expecting like analysis of paper, study material and the best how to pass series, that was the day and today brainheaters have made studying more efficient and effective ❤️
Thank you :)

Abhishek Sharma

22

”

Thank you so much for very interesting and educational videos, thanks a lot for creating our semester stimulating. You guys are truly amazing for creating such kind of bh.materials for us! In short BH makes our study more easier! Last but not the least thank you so much for building more interest of engineering study for us!

Sagar Mhashilkar

Since 2018 | College: Sarawati College

“

Brainheaters is a really helpful site. Everything has been mentioned so perfectly. From question banks to important questions, analysis to blueprints, everything is perfection! & the way you've designed the page is also really amazing! Love you guys, doing a great job!

Akhila Vishnu

Since 2018 | College: R.A.I.T

24

“

First of all, thank you so much for helping me through out my exams and in my current exams, frankly speaking I have been to brainheaters only during exam time. Must tell you that your prediction, analysis and module wise marks distribution is so perfect and that helps a lot. I have heard that brainheaters have also launched BH SCHOOL, it is incredible! Thank you so much.

Smith Bhati

Since 2018 | College: Shah & Anchor

25

”

Brainheaters has empowered me with smart studies, earlier we had the stress of studying for whole lot of questions for exam and now with brainheaters the questions we know where to focus, also the viva and blueprint of paper are really useful about 80 % brainheaters prediction I have found to be correct always. Also the repeated questions which they tell are really useful. And on top of this the thing which is really best about brainheaters is that it provides all these resources at almost negligible amount affordable to all every year. Thanks to brainheaters!

Nihar Bhoir

26

Since 2018 | College: M.H Saboo Siddik

“

It's just awesome actually because at the main sem exam time it just helped me so much as I didn't bring any subject books this sem but the people in the group helped me with the books as well as their actual notes. So it was awesome .

Afzal Ali Siddique

Since 2019 | College: Konkan Gyanpeeth

27

“

It's the best platform for learning. I learnt many of the things from Brainheaters. Brainheaters really changes the perspective & career of students and gives them a better career. Thank You So Much Brainheaters Team Thank you. I Love Brainheaters.

Since 2018 | College: Anjuman-e-Kalsekar

28

”

Brainheater is a very good community. They gives us important questions for both viva and for semesters. They also provide us videos of important questions. Also gives motivational speech which increases our confidence. They support us like our family member. It is the best community To help an Engineering students. Thanks For Supporting us.

Rohan Panda

“

Hello friends, I'm Hrishikesh currently studying in Second Year, Sem 4. I was all down in Sem 3 so I'm in a big trouble that I have to give 10 papers (Sem 3 + Sem 4) and one Golden subject from FE that was M2. Brainheaters is making it quite easy for me to clear these subjects as this site has excellent materials to clear the subjects. Also the F.E notes available over here are quite easy and user friendly. As far now, I'm finding these subjects easy with the huge amount of data that is available on this site. I would recommend all my engineering friends out there to take help from this site and it'll surely help you !

Hrishikesh Paithankar

Since 2019 | College: Terna College

“

Brainheaters changed my study skill. Before knowing brainheaters I studied whole book and whole chapter but it was not working. I got KTs in most subjects of FE. But in sem 3 I referred brainheaters important questions and question bank and notes. Trust me it improved my study skill and now I am all clear in all semester, Thanks Team BH.

Shaikh Amir

Since 2018 | College: MGM College

31

”

First of all the main problem we all students face during our study is which topics and what to study for exam, Viva, test, etc. Answer is BH, get all clear very easily with smart methods by following instructions provided by the Brainheaters. And thank you for providing the Brainheaters videos on -How to pass series, Question banks, Bh.Papers and more. Once again thank you for making me a smarter engineer. I would say Brainheaters is the best source of study resources for all engineers.

“

Brainheaters is a wonderful website for all the students across Mumbai University. It is not just a website but also they provide you their WhatsApp group where students can interact with other students and ask questions and get solutions, and also with Brainheaters special faculties. Students can get required information about the subject. So I personally will prefer all the students to go and join Brainheaters it is really worth it!
